C. Research Support.**Ongoing Support**

RO3 HS11462-01 Sudano (PI) 7/01/01 - 6/30/03

AHRQ

Hispanic/White Differences in Self-reported Health Status

Investigates Hispanic (English and Spanish speaking) and White differences in SROH among adults age 51-61 years in the Health and Retirement Study. This project uses innovative regression approaches as a first step toward a better understanding of ethnic perceptions of health status, and of the relationship between self-reported health status and health care use.

Role: PI

R01 HS10283-03 Baker/Sudano (PI) 10/1/02-9/30/04

NIA

Health Outcomes for Uninsured Older Adults--II

This continuation of Federally Funded R01 HS10283 extends both the content and the longitudinal stretch (12 years) of analyses regarding how the lack of health insurance influences adverse health outcomes.

Role: PI for Consortium Institution

Completed Research Support

R01 HS10283-02 Baker (PI) 9/30/99 - 4/30/02

AHRQ

Health Outcomes for Uninsured Older Adults

Examines whether uninsured adults age 45-64 years old in the Health and Retirement Study were more likely than those with private insurance to have a decline in their self-reported overall health or to develop a new physical difficulty.

Role: Co-Investigator

RFQ9 Sudano (PI) 4/20/01 - 6/30/01

Ohio Department of Health

Analysis of Racial and Ethnic Differences in Health Care Access, Quality, and Satisfaction in the 1998 Ohio Family Survey
The major goal of this project were to examine a statewide survey to determine the extent of racial and ethnic differences in health care access and perceived quality of care and satisfaction.

Role: PI

RFQ 11 Sudano (PI) 4/20/01 - 6/30/01

Ohio Department of Health

Analysis of Racial and Ethnic Differences in Health Care Utilization in the 1998 Ohio Family Survey

The major goal of this project were to examine a statewide survey to determine the extent of racial and ethnic differences in health care utilization (medical, surgical, dental, emergency department).

Role: (PI)
